CLOSED LANDFILL INVENTORY

I BASIC IDENTIFYING INFORMATION

Council of Governments Name: Concho Valley Council of Governments

County Name: Mason

Site Number: U399 Permitted Site: ____ Unpermitted Site: X

II SITE HISTORY AND CURRENT STATUS

Name of Owner/Operator: City of Mason

Address: P.O. Box 68

City, State and Zip: Mason, Texas 76856

Descriptive Location of Landfill: Approx. 4 acres, 1.5 miles southeast of Mason on US 87, east of US 87,

Dates of Operation: 1920 thru 1979

Current Status: private recycling operation and undeveloped pasture land

III GEOGRAPHIC LOCATION AND BOUNDARY DESCRIPTION

A. Confidence Level 2 (well known site, no permit, no meets and bounds)

B. Geographic Location (lat.& long. in decimal degrees): W: 99.200113 N: 30.724096

D. Boundary Description: the entire site is isolated, the entire site is surrounded by a well maintained fence and undisturbed pasture land.

The horizontal positional coordinates for the point locations identified on the map were obtained by CVCOG and TNRCC personnel using differentially corrected GPS.

This map was generated by the Concho Valley Council of Governments. No claims are made to the accuracy or completeness of the data or to its suitability for a particular use.

For information concerning this map, contact Regional Services at 915-944-9666.

This map was prepared by the Concho Valley Council of Governments and the Texas Natural Resource Conservation Commission Region 8 in response to previsions of Section 363.064, Texas Health and Safety Code.

The closed landfill unit location and boundary indicated on this map are approximations only, based on the best available information.

Specific land tract(s) have been identified within this approximate boundary in order to inform the current and prospective landowner(s) that a closed landfill unit(s) may exist on any or all of these tract(s).

This map is not intended to influence the sale or purchase of real property. Accompanying this map is additional information on the subject closed landfill unit, land tract(s) and the assigned confidence level of the unit's location on this map.

Solid Waste - Mason County

STATE DEPARTMENT OF HEALTH

AUSTIN TEXAS

INTER-OFFICE

FROM: Rudolph H. Weiss, P.E., Regional Eng. TO: Mr. Charles K. Foster, P.E., Director Division of Sanitary Engineering

SUBJECT: Solid Waste - Mason Municipal Disposal Site - Mason County - February 8, 1972

On February 9, 1971, an inspection was made of the Mason Solid Waste Disposal Site which is located east of U.S. Highway 87, about 1½ miles south of the City of Mason, at which time recommendations were made regarding the operation of this site. On February 17, 1971, the Department wrote the City of Mason regarding this Municipal Solid Waste Disposal Site and made four recommendations.

On November 18, 1971, personnel of the Region VI Office again visited Mason, and in company with Utilities Manager Crouch, made an inspection of this solid waste disposal site at which time it was noted that no changes, improvements, or additions had been made since the previous inspection in February. On December 8, the Department advised Mayor Brannies, that they would appreciate if the City would advise the Department regarding what had been done to comply with the recommendations as outlined. The Central Office also sent us a memorandum requesting that we again check on this solid waste disposal site and on December 8, in company with Mr. Carlton Crouch, Utility Manager, an inspection was made of the waste disposal site.

It was noted that the City had engaged the services of a Bull Dozer and that the solid waste was being pushed and some effort was being made to consolidate. Since little dirt is available at this site and the site is also almost completely filled, it was suggested to Mr. Crouch that possibly this material could be burned and compacted and dirt hauled in to cover it, and the site closed as soon as possible. Later in the afternoon a conference was held with Commissioner Cecil Chew and he advised that the City had been trying to obtain some land from the County which they own at the Airport Site for a solid waste disposal site. He further advised that they had tried to obtain some additional land at various places near the City, however, at this time, nothing could be found. I am sure that he realizes as well as the other City Officials that the present site is not satisfactory, and that it will require considerable effort to close it in accordance with the Departments rules and regulations. Judging from our conversation, it is felt that the site will not be closed until another suitable site is obtained. We offered the services of the Region VI Office to make an unofficial evaluation of any sites which they might have under consideration prior to the City of Mason filing an application for site approval.

Since it appears that the City of Mason has not answered the letter of December 8, and some two months have elapsed, that again you may wish to call to the attention of the Officials, the previous recommendations and give them some deadline at which time some action should be taken by the City in order to comply with the Rules and Regulations for solid waste disposal.

Respectfully submittted,

Rudolph H. Weiss
