CLOSED LANDFILL INVENTORY

I BASIC IDENTIFYING INFORMATION

Council of Governments Name: Concho Valley Council of Governments

County Name: Tom Green

Site Number: U657 Permitted Site: ____ Unpermitted Site: X

II SITE HISTORY AND CURRENT STATUS

Name of Owner/Operator: Elmer Edgington

Address: unable to locate Mr. Edgington

City, State and Zip:

Descriptive Location of Landfill: old caliche pit, unable to locate site within North Concho Lake Estates, map includes all the estates.

Dates of Operation: unknown thru 1976

Current Status: residential area

III GEOGRAPHIC LOCATION AND BOUNDARY DESCRIPTION

A. Confidence Level 4 (unable to locate site, map includes entire subdivision)

B. Geographic Location (lat.& long. in decimal degrees): W: 100.48353 N: 31.53589

C. Boundary Description: unable to locate site, map depicts entire North Concho Lake Estates. The area is bordered by US 87 on the west and FM 2105 on the south.

The horizontal positional coordinates for the point locations identified on the map were obtained by CVCOG and TNRCC personnel using differentially corrected GPS.

This map was generated by the Concho Valley Council of Governments. No claims are made to the accuracy or completeness of the data or to its suitability for a particular use.

For information concerning this map, contact Regional Services at 915-944-9666.

This map was prepared by the Concho Valley Council of Governments and the Texas Natural Resource Conservation Commission Region 8 in response to previsions of Section 363.064, Texas Health and Safety Code.

The closed landfill unit location and boundary indicated on this map are approximations only, based on the best available information.

Specific land tract(s) have been identified within this approximate boundary in order to inform the current and prospective landowner(s) that a closed landfill unit(s) may exist on any or all of these tract(s).

This map is not intended to influence the sale or purchase of real property. Accompanying this map is additional information on the subject closed landfill unit, land tract(s) and the assigned confidence level of the unit's location on this map.

SUBJECT Solid Waste - Tom Green County
Illegal Site - North Concho Lake Estates

ATTN: Dave M. Cochran, P.E., Chief
Bureau of Environmental Engineering

On December 7, 1976, the writer and Charles LaSalle, Engineering Assistant, Region 4, contacted Mr. Elmer Edgington, co-developer, North Concho Lake Estates, concerning a dump site in the subdivision area. This site had been located the previous week by Sanitarian Menzies of Region 4 while working in the area but time limitations had prevented follow-up work on it.

Mr. Edgington reported that the site was a pit from which caliche was excavated for the subdivision roads and that the dumping of refuse was not wanted. This dumping was started and reportedly has increased recently due to present use charges at the Angelo Sanitary Service landfill in San Angelo. Mr. Edgington also reported that the refuse was being covered and that the pit would be completely filled. He did not wish to allow continued dumping or to operate a disposal site.

An inspection of the site revealed a dozer in the process of filling the pit (see attached photo) with fill material which is available within the subdivision from an excavated tank. It was reported that this had been planned for some time, but that the personnel to do the work had not been available. It was estimated that the pit should be filled within a week to ten days.

Since the "site" is closed, the pit is being filled and dumping will not be allowed in the area, no further action is necessary. A reinspection will be made at a later date to confirm the completion of the work.

Respectfully submitted,

Stanley W. Thompson
