CLOSED LANDFILL INVENTORY

I BASIC IDENTIFYING INFORMATION

Council of Governments Name: Concho Valley Council of Governments

County Name: Tom Green

Site Number: U659 Permitted Site: ____ Unpermitted Site: X

II SITE HISTORY AND CURRENT STATUS

Name of Owner/Operator: City of Miles

Address: P.O. Box 398

City, State and Zip: Miles, Texas 76861

Descriptive Location of Landfill: Approx. 10 acres, 3 miles south of the City of Miles on FM 1692, on the east side of FM 1692.

Dates of Operation: unknown thru 1976

Current Status: undeveloped pasture land

III GEOGRAPHIC LOCATION AND BOUNDARY DESCRIPTION

A. Confidence Level: 3 (general location, unknown boundary)

B. Geographic Location (lat.& long. in decimal degrees): W: 100.17627 N: 31.55507

C. Boundary Description: The site is bordered by FM 1692 on the west, and undisturbed pasture land on the other three sides.

1 meter color infra-red image.

The horizontal positional coordinates for the point locations identified on the map were obtained by CVCOG and TNRCC personnel using differentially corrected GPS.

This map was generated by the Concho Valley Council of Governments. No claims are made to the accuracy or completeness of the data or to its suitability for a particular use.

For information concerning this map, contact Regional Services at 915-944-9666.

This map was prepared by the Concho Valley Council of Governments and the Texas Natural Resource Conservation Commission Region 8 in response to previsions of Section 363.064, Texas Health and Safety Code.

The closed landfill unit location and boundary indicated on this map are approximations only, based on the best available information.

Specific land tract(s) have been identified within this approximate boundary in order to inform the current and prospective landowner(s) that a closed landfill unit(s) may exist on any or all of these tract(s).

This map is not intended to influence the sale or purchase of real property. Accompanying this map is additional information on the subject closed landfill unit, land tract(s) and the assigned confidence level of the unit's location on this map.

City of Miles
Miles, Texas 76861

Texas Department of Health
1100 West 49th Street
Austin, Texas 78756

Attention: Mr. Jack C. Carmichael, Director

Gentlemen:

In regards to your letter of October 30, 1979 concerning our old solid waste disposal facility, it would be extremely expensive and nearly impossible to meet the deadline of January 1,1980 for closure of the landfill.

The city and the county have spent a considerable amount of money and time doing what has been done. It is a much greater job than first expected. The county has spent the past three days working on the project, but can not afford to spend any more time on it as of now. It does look much better in our opinion.

Therefore if you will grant the city of Miles a nine month extension, we feel that compliance can be made.

Sincerely yours,

HE Treadaway

Henry E. Treadaway, Mayor

DEC 12 1979

Honorable Henry E. Treadaway
Mayor of Miles
P.O. Box 398
Miles, Texas 76861

Subject: Solid Waste - ~~Runnels~~ TOM GREEN County
City of Miles Old Site, Located in
Tom Green County E of FM 1692, 3
Miles S of Miles

Dear Mayor Treadaway:

Your undated letter to the Department asking for a nine month extension to close the subject solid waste has been received. At the request of our regional office, the Department will grant the City of Miles a nine (9) month extension to give the city and county time to properly close the subject solid waste site.

By copy of this letter we are requesting our regional personnel to inspect the subject site on or about August 31, 1980 and report their findings to this office.

If you have any questions or if we can be of any assistance to you concerning solid waste management, please contact us here in Austin or Mr. Stanley W. Thompson, P.E., Regional Director of Environmental and Consumer Health Protection, located at Second Floor-Old County Courthouse, Abilene, Texas 79602, telephone number (915) 673-5231.

Sincerely yours,

Jack C. Carmichael, P.E.
Director
Division of Solid Waste Management

14. Findings

Access

F-2.10 A. Is adequate all-weather access to an unloading area provided? . . . . . yes

C-5.2 B. Are waste materials scattered along the route to the disposal site creating a problem? . . . . . no

C-4.1 C. Are collection vehicles maintained in a sanitary condition? . . . . . yes

Security

F-2.2 D. Is the site provided with a suitable fence? yes Lockable gates?. . . . yes
Has an alternate means of access control been approved by the Department? na
Does the alternate means provide adequate control?. . . . . na

Water Pollution

E-3.3e(5)E. Is solid waste deposited within 500 feet of a drinking water source (water supply well no, intake of water treatment plant no, or raw water intake for a public water system no)? . . . . . no

F-2.4 F. Is solid waste placed in unconfined water? no Explain na

F-2.4 G. Is lining of excavations or disposal areas required? . . . . . no
If so, did site operator notify the Department of liner completion prior to acceptance of solid waste?. . . . . na
Is site considered adequate to receive solid waste?. . . . . closed

F-2.4 H. Is flood protection provided for site? no Is it required?. . . . . no
When flooded? (Refer to permit application, where appropriate) never

F-2.4 I. Can surface drainage enter working face or actively used excavation? . . yes*

F-2.4 J. Is water which has been in contact with solid waste being discharged from the site? no Is discharge authorized by TWQB? . . . . . no

Operational Standards

F-2.1 K. Is adequate fire protection provided?. . . . . yes
Method?. . . . . Volunteer Fire Dept.

F-2.2 L. Is unloading of waste confined to as small an area as practical? . . . . no*

F-2.2 M. Is an attendant on duty when site is open? . . . . . yes
Are adequate signs posted for internal control when attendant is not on duty?. . . . . yes

F-2.3 N. Is blowing waste confined satisfactorily?. . . . . yes
Controls waste has been burned

O. Hazardous, Mixed and Special Wastes:

F-2.5a Are water or waste water treatment plant sludges or grease trap wastes accepted? no If yes, type na
Are disposal procedures adequate?. . . . . na

F-2.5b Are dead animals or slaughterhouse wastes accepted? no Disposal procedures adequate? . . . . . closed

F-2.5c,d Are significant amounts of TWQB Class I industrial solid wastes accepted? no
If so, has approval been obtained from the Department? . . . . . na
Is operation compliant with Department's approval requirements?. . . . . na

F-2.6 Are hazardous wastes (EPA List) accepted? no Specify kind na
If so, has approval been obtained from the Department? na Are pesticide containers that have not been rendered unusable covered upon receipt? . . . . . na

F-2.7 & D-3 P. Adequate provisions for: bulky items? . . . . . na
brush and construction-demolition wastes?. . . na

F-2.8 Q. Burning observed or in evidence? yes Is burning authorized by TACB? . no

F-2.9 R. Fly population: Heavy _____ Medium _____ Light _____ None x
Evidence of rodents? none Birds? none

F-2.11 S. Is salvaging allowed? no Is it adequately controlled?. . . . . na

F-2.11 T. Is scavenging occurring? (Explain in comments) . . . . . no

F-2.13 U. Is cover adequate and applied at required frequency? . . . . . no*
Are closed sections of the landfill properly maintained? . . . . . no

F-2.14 V. Is ponded water a source of obnoxious odors? . . . . . no

Permit Requirements

E-2 W. If site is not permitted, was the site in operation prior to October 16, 1974. Yes x No _____

H-3.2 X. Is site in compliance with permit special provisions?. . . . . na
If no, explain in comments.

15. Improvements since previous inspection: Trenches have been excavated.

16. Summary of non-compliance: 1.Surface drainage not controlled.2.Unloading not confined to smallest practical area.3.Improper earth covering procedures.

17. Comments (use additional sheets if necessary): See additional sheet.

Operation Considered To Be: Satisfactory _____ Unsatisfactory x

18. Recommendations (use additional sheets if necessary): See additional sheet

19. Action Requested of Central Office: See attached letter for transmittal

20. Unclassified sites: Where the site operator has not been officially notified of the required type of operation (by letter or by issuance of a permit) state type operation recommended and justification. Type _____ Reasons (screening, traffic, etc.) NA

Have these conditions changed since previous inspection? no

(Please attach copies of letter originated by Regional Office)

Inspected By Charles LaSalle, Engineering Assistant Date June 3, 1977

Approved By Stanley W. Thompson, P.E. Date June 8, 1977

TDHR 5/77

Comments

On May 25, 1977, the writer performed a compliance inspection of the Old Miles Site in the company of Mr. Werner Harsch, City Superintendent.

The old site is no longer receiving deposits of refuse. The county has been excavating for earthen material at this site and it is estimated that the trenches now available at the site may be large enough to contain the refuse. No refuse has been buried yet, however, it was understood that this was also to be accomplished.

It is not known whether a status report was submitted as requested by Texas Department of Health Resources letter dated September 2, 1976. If this report was submitted, please furnish Region 4 with a copy for our use.

The Mayor was not available at the time of the inspection but will be contacted to discuss the needed work at a later date.

Recommendations

See attached letter for transmittal.

Respectfully Submitted,

Charles LaSalle, Engineering Assistant
